COLLECTION OF COURT FINES, FEES AND VICTIM RESTITUTION
STATE-OF-THE-ART HARDWARE AND SOFTWARE | ALL MADE IN THE USA

Helping people stay on the right path to a better life.

Since 1993, Sentinel Offender Services has been chosen by law enforcement agencies from across the country (i.e., courts, sheriff departments, probation and parole departments, etc.) as a trusted partner to provide comprehensive case management and supervisory services for offenders. We pioneered the first *offender-funded programs* in the country. These programs require the offender to pay a daily fee (based on that individual's ability to pay) for their participation in a given supervision program. For municipalities and their law enforcement agencies, Sentinel has been able to dramatically reduce the cost of these expensive supervisory programs—all while operating with strict adherence to the rules, guidelines and oversight of our customers.
